

Regulations – Friends of the Western Wall Heritage Foundation

Background:

The purpose of the Western Wall Heritage Foundation is to make the Western Wall – the remnant of our Temple – a center of attraction for the entire Jewish nation, with the purpose of deepening and strengthening the relationship with it, and to make it a beacon for the entire world, as in “For out of Zion will come the Torah, and the word of G-d from Jerusalem.”

Many areas fall under the Western Wall Heritage Foundation’s responsibilities, including: construction and development, maintenance, operations, and more.

In order to preserve and develop these many areas, it is necessary to raise a great deal of funds. For this purpose, the Western Wall Heritage Foundation raises funds from government budgets and donations from Jews around the world.

We wish to thank and show appreciation to those who chose to be partners in these significant endeavors, being members of the Friends of the Western Wall Heritage Foundation.

These members will be privileged to receive the Jewish nation’s modest show of gratitude.
